Cahier des charges

Contrainte technique

Le produit doit avoir
bonne une durée de vie
de batterie et etre
conforme à des normes
de qualités.

contrainte d'usage

Le produit doit etre
sécuriser car il est
destinée à un
groupe d'usagers.

Contrainte environnementale

Le produit doit etre
recyclable et fabriqué
avec des matériaux
écologiques.

Composants

Microcontrôleur

Capteur bluetooth

Capteur de fréquence cardiaque

Chaine d'information
